

Dear Mr. Mayor

I have joys and concerns about Chicago today. One of the things I want Chicago to have are more programs for the mentally disabled children. Having a brother with Autism this is a huge concern. In 2006 my brother had KEEN, kids enjoy exercise now a program for children with Autism. My brother really enjoyed it. Unfortunately, now it been closed down. This happened because the economy went topsy turvy. We can put the program's location in rental space or have a room in the YMCA. It will have a large impact on Chicago by helping those children gain knowledge and strength in an enjoyable way.

Sincerely,

Age 9
