

Dear Mr. Mayor:

I have a big plan that I want in Chicago and that plan is only police could have guns. And I picked this because I hear on the news everyday more than one people ^{are} getting killed and most of them our innocent children they didn't even do anything. I know police they don't just go around shouting people they take care of the people. So you could collect all the guns and after your done if they have a gun you could arrest them.

If you pick my plan I am sure Chicago will be a better place for the people and this is a great plan for Chicago and it is safe for Chicago and a start for a new Chicago.
