

Dear Mr. Mayor

5-14-09

I think you should make a
special planting month in May.
People should work hard planting
seeds.

Plants will grow every where!

We will have more tourists and
Chicago will become famous!

Everyone will love Chicago!

It will be beautiful!

It's going to be easier to breathe.

Chicago will be great!

This is my best idea.

Chicago will be better.

Yours truly,
