

Dear Mr Mayor,

May 14, 2009

I want Chicago to be a better place by building more grocery stores.

With more grocery stores families in the city will be healthier & happier.

There will be more food for everyone in the city to buy for their families.

There will even be food for the homeless.

I also think that since we'll have so much food in the city we can donate some of it to Africa to be nice them too.

Mr Mayor please take my idea very seriously...

And I hope to see you very healthy and happy!

Yours Truly,
