Dear Mayor Daley,

I have notice that there are many things in Chicago that need to be fixed and one that I've notice in particular is littering and I think something should be done about this!

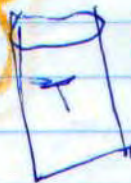

This would be a big change in Chicago because, if ~~something~~ something is done about this Chicago will be a better places.

This would be a good change in Chicago because, if there is less litter in Chicago people won't get hurt as much, it will be safer to play outside, and Chicago would be a cleaner place.

Mayor Daley I would very much appreciate if you do something about litter, I would like you to get some of your staff and city cleaners and you can even put up signs for volunteers to help pick up the litter.

Thank You

Sincerely,

Picking the litter up!
