

May 13, 2009

DEAR Mayor Daley,

Mayor Daley you are a good Mayor for this city but we should make a new change. In this city we need to change school computers and the people who is working on there dreams should just sign up in that the judges decided

We should change all old computers in all schools to new ones because the new computers work better then the old ones. That's why we need new computers in all of the schools.

The people who is working on there dreams should just sign up in let the judges decided should they be want they want to be. Like me I am trying to work on my dreams. Me and my sister can sing better then all everyone in my family. That's why we should just sign up instead.

If I was the Mayor what will you want to change?
