

Thank
you Mayor
Daley

May 12, 2009

You are
a good
Mayor!

Dear Mayor Daley,

I think that you are a good Mayor, but all the homeless people should live in all the empty homes. The homeless people should live in there.

Because, in the winter the homeless people can get sick without a home. And it will not be a lot of people on the street, and the homeless people will have warm water and warm food.

And all you have to do is put the homeless people in the houses. And so a lot of homeless people will not be on the street.

Chicago will be a better place because the homeless people will have a home and it will not be a lot of homeless people on the street. And the world will be a better place.

Sincerely,
