

Dear Mayor Daley,

May 13, 2009

I think that you are doing a great job running the city of Chicago. Even so I have an idea that I think will make Chicago an even greater city.

My idea is to get rid of parking meters. I think it's important to get rid of parking meters because if someone has an emergency and has to go to a doctor or hospital and they don't have any change on them they might get a parking ticket. It wouldn't be fair for them to have to pay the ticket because they had an emergency.

Also it would be better to get rid of parking meters because if you want more people to shop Downtown and go to restaurants and museums. Lowering parking rates would encourage them to go Downtown. If you can't get rid of parking meters then you can lower them to twenty-five cents for one hour. In the suburbs parking is lower and more people are starting to shop in the suburbs instead of Downtown Chicago.

My idea will make Chicago a better place because people won't always have to carry money or change around and less people will get robbed. I hope you like my idea for Chicago!

I really love living in Chicago and think it's
a great city!

Sincerely,
