Dear Mayor Daley,

A good way to change Chicago is lower the taxes because some people can't afford them. All of a sudden they have been getting higher and higher. For example if you go to a vacation the taxes are so high that some people can't afford to go.

Mayor Daley I think people would love this little change of Chicago. What the city has to do is tell the citizens that it will take a couple of months. People will be happy because then people would have extra money to spend at different places in Chicago. If more people will have jobs and there will be less crime. Please think about my plan.

Sincerely,

Reilly'scool 3rd grader.
