Dear Mayor Daley

You make a great Mayor for Chicago. My idea to make Chicago better is to create jobs. Some people have no jobs at all or they need money to buy their food to survive. If one person's family member is in the hospital they need money to pay the bill and if they don't work how are they going to pay for their family member?

Also people need money to rent homes. To carry out this plan it needs to be like a factory or a restaurant, stores, malls and lots of other jobs. And the Mayor which is you, you have to pick people to volunteer to help build jobs. They would pick an owner to hire people and that is how they would get their money and a job. Even Barack Obama is trying to tell people to give a lot of jobs, since Barack Obama is the president. And his wife Michelle, and their two daughters agree. You are doing a very good job being Mayor, and everybody likes how you create things and make a very good decision. Everybody likes that you are the Mayor. Have a great day.

Sincerely,

from Reilly Elementary school.
