

May 13, 2009

Dear: Mr. Mayor

This man Burchan wanted our city to be the best. All bids must have the internet in their home, because we can do our homeworks, history reports. We can even play games in the internet. Not only children can use the internet, our parents, grandparents, uncle, and aunts. Parents go where they want to go. And children can go where they want to go on the internet.

Sincerely,

student from
Reilly School
