Chicago Illinois 60618

Dear Mr. Mayor

We should have more libraries in the city. So in the city the citizens can learn more. I can't find libraries so I don't read alot. I wish there were more libraries. I want to read many books about history. I'm so interested in books. We all will be more inteligents. Burnham Plan Centennial was a good man. He put our city up. We can do that by putting more libraries in each community. Let's be like Burnham Plan Centennial by building more libraries.

Sincerely,

Student of Rully.

P.S Remember more reading more inteligent you are. So put more libraries.
