Ave Chicago  
Illinois

Dear Mr. Mayor

I think that the Meters shouldn't be on the streets. Many people can't go place because meters cost money, and they don't give enough time.

That money that you use in meters can be used it in food, or things that we need. People that have meters one the side of their parking lots, have to pay more. Mr. Mayor I don't want the meters in every place. I think that we should follow the Bergham Plan Centennial, and I hope you take away the meters from the city of Chicago

Sincerely

Keally School.
