Dear Mr. Mayor

We should follow Burnham
Plan Centennize. He wanted
this city to be good for every body.
Now is a problem with the
meters all over the place. The
people can go to places like be
fore. These meters are last time
for more money. Many poor
people don't have that money.
Please eliminate these
meters in the community.

Sincerely,

Student of
Reilly school.

Ps, I hope you read my letter
very carefully and may my
dream a reality.
