Dear Mayor Daley

I have an Idea for Chicago and here is my Big Idea. Add more parks and gardens because then it would make Chicago more beautiful.

One reason we should have parks is because kids would have more fun and a place to play. They will not have to walk far to get to a park. For example 5 blocks should be the most they should have to walk to get to the park.

I also think we should have gardens because then our city will have Fresh Air to Breathe. And more Fresh fruits and vegetables such as Tomatoes, cilantro, apples, pears, grapes and more. This will help make the people of Chicago healthier.

I think we need both gardens and parks. Then citizens will enjoy and Love the new Chicago.

This will change Chicago because Chicago will be a beautiful, joyful, clean, and happy city.

And that's what I think will be a good Big Idea for Chicago. Thank you for reading my plan.

Sincerely,

Reilly School
