Dear Mayor Daley,

My name is [REDACTED]

To make this world a better place  
you should plant seeds like trees, and  
flowers. You should do this because  
we can have more oxygen.

Also so animals could have food.

Even so the world can look green.  
This is how you can help.

You can get workers to help you plant.

Also send workers with free passes  
to go on the planes and they can  
plant seeds in other states.

Sincerely  
[REDACTED]

P.S I hope it works
