How do I want to make Chicago a better place?

Don't sale guns and stop the bad guys and erase the gange stuff because it will be a bad example for the kids like us.

Then out cameras in the park. So police could see it and take them to jail. plant more grass so we could play. Make other gols, get new playground and clean the park

Fix the streets, because sometimes cars get stuck. when the kids are asleping it makes little babys cry because of it's noise.

close the bars because when the people come out they are somthing and the are drinking beer when the police sees the drink the get them to jail.

show them how to drive because my uncle crashed with the other car and he went to the hospital, thats is not cool for me.
