How do I want to make Chicago a better place.

My idea to make Chicago a better place is to make a line for the people who ride a bike and a space for the cars.

Have you ever thought about what is going to pass on the future? I have a plan for Chicago to be safe. The scientists have to make smaller cameras so the gang bangers do not see it.

Do you realize that the streets have potholes? We could make pass. Let me tell you about what we can do. The thing that we need to do is to repair the streets.

That in the pass the president
has to make an order to the
police to protect the city
from the gang members.

My idea to make Chicago
a better place is to protect
the city.
