Seward

How do I want to make Chicago a better place?

We need to clean the parks and put green grass. The parks need to be safe.

The police need to put more cameras and we need more police.

The people need to be more safe when it's night and day time.

The city needs to clean the streets and not leave anything in the streets.

Close the taverns for the people who want beer.

A very new gun law for all the police.
