Dear Mayor Daley,

I have a few ideas for you on how to make our city of Chicago a better place to live. My first idea is fixing the streets. My second idea is giving schools more computers, and my last idea is to give a computer with internet to each family.

My first idea is to fix the streets. So cars don't get stuck in holes. You should make sure the holes are filled and that it's clean when it's done.

My second idea is to give computers to schools. This way kids can use them like at Chavez school, they took them away and added science. If we have computers we could learn more.

My last idea is giving computers with internet to families. This way if students need to print stuff out at home they can do this. They can also go to different websites to do their work.

I hope you use my ideas Mayor Daley

Sincerely,
