I thought the best thing to do in Chicago is let immigrants stay because their are people who are getting separated from their family because they crossed the border.

Another thing is that we need to close down Alcohol stores because if they drink it can cause a hit-and-run and someone could get hurt.

Also we should close down cigar companies because they give people bad lungs and people could die from it.

Also, my last and final reason is have more hidden cameras near lakes, alleys, parking lots, and gun stores. Many children cant walk to their house without getting beaten-up.

I would still love to live in Chicago, I
