

05-12-09

Dear Mayor Daley,

You should close down gun stores, put more street cameras, more police in the street, you should build more schools, you should build more houses for the homeless, you should make more jobs because people are losing their jobs. Also give more help to the old people. You should lower taxes and lower gas prices because it cost too much, and some people maybe can't waste a lot of money. And maybe can't afford that high price. You should put more hospitals for people who don't have a lot of money. More police who can speak in different languages like English, Spanish, and German and other languages. And that's all I have to tell you Mayor Daley. And please help immigrants who come to the city.

Sincerely,

Seward
