

Dear Mayor Daley,

I'd like you to shut down gun stores and make more homes because some people do not have homes or food, if they do not have these things they can not survive so I would like you to do something to help because people really need it.

I'd also like to stop people from doing crimes and help them be better persons. There are a lot of funerals in my neighborhood this is because of the bad crimes.

Please give some jobs to the men and boys in gangs so they cannot kill people any more. That is hurting people.

Sincerely
