Dear Mayor Daley,

Can you change Chicago by making every thing cost \$5 or lower, put more stop signs, and every one should have phones.

First, you should make every thing cost \$5 or lower because some people don't have a lot of money to pay bills and buy stuff for kids and there selfs.

Next, put more stop signs because people sometimes need to cross and cars might run over people, and a lot of people are getting hurt.

Last, please let every one have phones and bring them to school. Because some kids might get lost and they could call there parents or one of there family members. Also people need phones so if some one is alone in there house and if someone is hanging on there house they could call the police, 911.

Sincerely,
