Dear Mayor Daley,

You should make everything cost less like Nintendo D.S.I.s they cost \$169.99 plus taxes and you should take away \$20 or \$30. These are the two reasons why we could buy more stuff, and for poor people that have a little bit of money.

First, you should take away \$20 or \$30 if it costs more than \$40 or if it costs exactly \$40 so we could have more money to buy more stuff like clothes, food, and gas. If a poor person gets up to \$11,000 and the poor person wants to buy a house that costs \$11,030 and you take away \$30 the poor person could buy it and not live outside.

Next, you should take away \$20 or \$30 if it costs more than \$40 so if poor people have a little bit of money like if they poor gets \$10 and there's some food and you don't need to cook it and if it costs \$40 you could take away \$30 and they would buy the food. If they couldn't get food, they might die.
