

DEAR Mayor Richard Daley,

My name is [redacted] and I am in the third grade at Jess Sherwood Elementary. If I could change something in Chicago, I would change the empty spaces in Chicago and put parks and stores and a lot of trees, horses right there so all of us little kids can play with a lot of things. For the grown ups, we can change the streets and make some different kinds of schools. This is for everybody! we need some more barber shops and some more hair salons.
