Dear Mr. Mayor,

I think that you should lower taxes and mortgages because people can't afford it. Also people won't go broke. Lowering it will help the people. If you need more money you can raise it little by little so people won't have to go borrow money from the government. Lowering taxes

will mean you won't be having
more than what you need and it
won't cost you anything People
can relax and not worry about
money. We only need you
Mrs. Mayor you're the only one
people want have to move
to a cheaper house they'll
have extra money for charity
The charity can buy home
for the poor and can use the
extra money for the Library

For more books for kids teens
and adults. It's a Good Idea
because people can be
happier and won't be sad
or scared about money. Some
~~some~~ has to move out into
the streets and can die you
can also donate money to the
hospital. Thanks for your help.

From A-1-1-1-1-1

Sincerely
