

6/14/09

Dear Mr. Daley I have a big plan for Chicago. I'm going to make it where there's at least 3 schools in every neighborhood. Some people don't have schools in their neighborhood. It will make Chicago a better place because Chicago will have more schools. We will need to raise taxes but kids will be smarter!!! I think we should raise taxes 5 percent. And that will get us the money to build schools.

Sincerely,
