Dear Mayor Daley

I want to tell you about my idea for Chicago. My idea is childrens menus in more restaurants. I think you should make this change because kids have restaurants that they can't eat in. Chicago will be different because there will be more kids around and there will be more places for them to eat. The restaurants will have better businesses. When people come to Chicago they'll have more places to eat.

It might take a long time. If people help typing and printing the menus it will take a lot of printing and typing to make the childrens menus. It might take a lot of money. That is my big plan for Chicago. I hope you give it some thought, so kids will have lots of different places to eat. Thank you for reading my letters.

Sincerely
