

Dear Mr. Mayor

May 15, 2009

Hi! My name is \_\_\_\_\_ and I live in your neighborhood. I see you every year when I go trick-or-treating. Any ways, I'm writing to you because I want our city to recycle more. One of my friends recycles whenever she can and that's what I want our whole city to do. It's a great idea because we could have a prettier city and more people will come and instead of being called "Windy City" we could be called the "Green City" and its also fun to recycle.

We would need to encourage and convince people that they should recycle and why and we probably wouldn't have to pay a penny. We would probably want recycling bins on every block and we would use the gas money or the money people use for recycling before.

Best Wishes,

Age: 9
