Dear Mayor Daley,

I know what you should change and put up a sports district at every neighborhood because people do eat a lot so they can stay fit. This is a great idea because people go out to eat and they can't stop because it is so good trust me iv'e been there. It is so hard to stop also it will give people more jobs to offer.

It will be different because people will be fit and still have money to eat and burn it of that's how it'll be different. They will need to get money that's what I think and by having a fundraiser that's what I think at Mayor Daley's soccer tournament. The people of America need to see their feet.

Best Wishes,

Age: 9
