Dear Mayor Daley,

I have some changes to make. Can you lower taxes and lower house bills? There should be more sales in grocery stores and shopping places so people come to the stores more because things are cheaper. Also you should lower house bills so people don't lose their homes because it costs so much money.

And there should be more recycling bins to help the environment. Chicago will be better because we're helping people and the world by lowering prices and having more recycling bins thank you.

Sincerely

age 9
