

5/15/2009

Dear Mayor Daley,

I have a great idea to help our city to get more jobs for people to raise money so they can pay for their children so they can get food, homes, beds and medicine to survive also because it would not be fair to have richer people that's why I am so interence with rich people. Chicago will be different because you will see less people holding signs and cups and begging for money and food. This is a great idea because everyone is equal and so everyone is happy! Mayor Daley, you would have to announce and talk to the public to have fundraisers every two times a month and make them big! Then find poor people who are poor.

Sincerely,
E. M. [unclear]

Sincerely,
