Dear Mayor Daley

My big idea is making a shelter for homeless people in every neighborhood. It's a great idea because think about the homeless people they don't have a place to sleep, eat and stay dry from the rain and they also don't have money to buy a home and things for their family. I think it will take 2 years to build and maybe a fair could raise enough money to build it.

Chicago would change, the homeless people could live a wonderful until they die

Sincerely,
