Honorable Mayor Daley

I think you need to save the poor people because they're sick and they need help and make them a shelter so they can't be really sick is because I want to save them too.

Sometimes the poor people need help and there are too many poor people that I want to help them that's why I want to all the people help the poor people.

So could we <sup>all</sup> help the poor people and make them a shelter for them and also we could help make a shelter because that's going to build fast with all the people.

Sincerely,
