From

Dear Mayor D. L. ... 3rd grade

I think we should find a way for people to stop littering! It contributes to Global Warming. It makes our community look ugly. It also endangers animals, and it creates unhealthy places for animals and humans to live. My Dad said we should make a new law so we could stop littering. He said if the police catch you littering, you have to pay a fine. You have to pay \$200 fine. If they catch you the second time, you have to pay a 600 fine. If they catch you the third time, you have to go to jail. 😞

Sincerely,
