3rd grade W. B. Stowe

Dear Mayor Daley,
I'd like to tell you about my plan
to make Chicago a better place.

- 1 Throw away prison cell phones, stop drug sellers, and spray painting.
- 2 Help the people in need
- 3 Don't sell guns to people, only to cops
- 4 Build better parks and communities
- 5 More tutors, more money teachers, & more securities in school

These are great ideas because drugs won't hurt anyone anymore, people won't paint on other people's granges. Help people in need by giving them free houses at first and jobs, clothes. I think only cops should have guns and there should be more police. We should build better parks for kids to play and better communities for kids to run and on porches. You should pay teachers more money because they work really hard, more tutors because kids need help sometimes, more securities in schools because some kids have problems with other kids.

This is my big idea to make Chicago a better place.

Sincerely,

bubblain.williams

hey today
took a great
shoot
ing.

THANKS
TO JORDAN

hey to help things...
