

School-Stowe

Dear Mayor Daley,

I think there should be some changes in Chicago for example free laptops to take home for homework for all schools.

Have swimming pools in all schools to exercise for the gym.

Have field trips out of state for children to explore other areas of the state of

8 Cops in every store

These are great ideas because
it will help Chicago Stay Safe
and it will be better for the
people to gather together to
make this happen the city
will need time and money
we will need to hire more
cops

After my idea Chicago
will be a better and more
people will come and visit!

Sincerely,
