

MAY 15, 2009

Honorable Mayor Daley.

I want Chicago to be a better place because there's a lot of poor people and I want that they could have better shelter. They could have jobs to get money and they could buy food. They could live better and feel comfortable in their new houses. The bank could help the poor people and the president could help the poor people. If the president helps the poor people they could live better. Sincerely
