

Thematic History Writer

CCSSW3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

First, choose a theme, a way of thinking about that time.

For example, you could write about progress.

You could write about how one person affects others.

My Theme: _____

Then choose persons or events that represent that theme.

List them in the first column. Then note how they represent the theme in the second column.

<i>Person or Event</i>	<i>How this person or event represents my theme</i>

Write the history. How will you make the theme clear from the beginning?

How will you conclude so your theme is clear?

Good writing is clear thinking.
