Dear Mayor Daley,

To make Chicago a better place
Open up more schools for the children. Fix the
holes in the street so the it won't be so hard
for the cars to get through because when the
cars hit the holes the back of their car
gets hit. Plant more flowers so it can look
better, put more books in the school for the
children and make more play grounds for the
children so they can have them some
fun.

To make Chicago a better place
more recycle cans on the streets and place,
signs up to let people know why its important
to recycle. Make more jobs with better pay so
people can have enough money to pay their
bills.

To make Chicago a better place
Shut down the weapon shops and make those
into something different like a toy shop with
lots of toys like dolls, trucks, and dollhouse
and other things too.

trustu yours;

old street

New Street with no hold
