Dear Mayor Daley,

The reason I think we should recycle is because all of the garbage that is being piled up in a place that is not healthy. Also it is a waste of money and I think it is not polite anyway. You are spending your money on nothing but trash. Also we can't drive, walk, or see the pretty environment. That's why we need to make a place where things have been thrown in the garbage need to be in a section that all certain things like newspapers, bikes, shoes, and other types of things like that can be recycled.

Truely yours,

The End
