

Goal 5: Locate, Collect, Organize, Synthesize, information and ideas from different sources.

Collect and combine information from different sources.

Start with a QUESTION—make it a big one. For example, what did Martin Luther King, Jr., accomplish—that’s a big question because it has many answers—and it’s an important question.

Find information that answers your BIG question in three different places.

<i>Information from Textbook</i>	<i>Information from another Book</i>	<i>Information from Internet</i>

What’s your answer?
