

### Hear the Parts

ILS 1A: I can identify syllables.

To spell a word correctly, you need to know the syllables. Take words you don't know how to spell from the list. Write each word showing the syllables. Use dots to divide the parts just as you would if you were dividing a word at the end of a line in a paragraph. For example, syllable would be syl •la • ble.

Word	Show the Syllables	How Many?
syllable	syl •la • ble.	3

Use a dictionary to check your syllabication.
