

BAR GRAPH

Graph Chicago

Use numerical information about Chicago from a map, the telephone directory, your textbook, a newspaper, or observations or surveys you conduct to make a bar graph.

1. *Locate and collect information about a situation.* It could be a sports article, a business article, want-ads, the kinds of programs on television, or any other kind of information such as the weather report.

2. *Use that information to make a bar graph.*
