

US HISTORY PAINTING READER

Your school will have 40 American artworks that students can “read” to develop learning abilities.

Each painting shows what was important at a time in US history.

This set of guides is designed to help your students “read” the works of art so they:

- ✓ Learn more about the history of the United States
- ✓ Expand their abilities

As they complete these activities, they will develop the very same skills they need to interpret stories, histories, poems, and paintings.
