

# Sentence Expander

I can use nouns, verbs, adjectives, and adverbs to build and expand sentences.

First, choose a topic: \_\_\_\_\_

Then list nouns that are part of explaining this topic.

Then list verbs you would use to tell about this topic.

Now write a sentence that uses at least one of your nouns and one of your verbs.

*Then expand your sentence. Add adjectives, words that tell about your nouns.*

*Expand it again. Add adverbs, words that tell about your verbs.*
