

Picture a Sentence

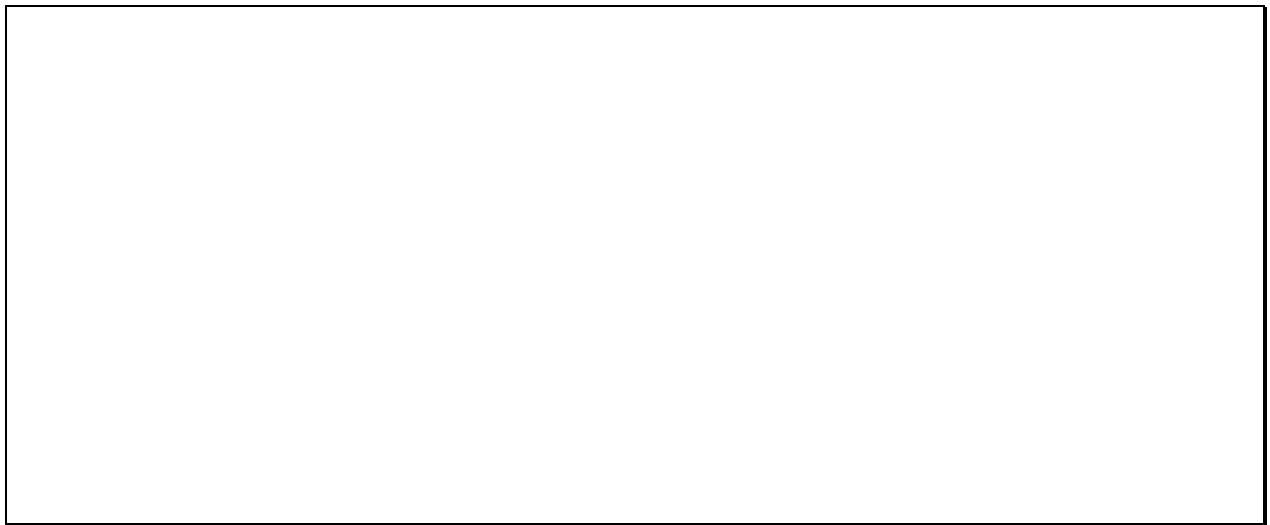

You can draw the meaning of a sentence.

And if you show it with pictures, you see what you are learning as you read.

Try out this method.

Student 1: Choose a sentence from a text you are reading.

Draw a picture that shows what the sentence says.

Then show your picture to another student—student c.

Student 2: Find the sentence you pictured.

Write that sentence on this line—in your OWN words—paraphrase it.
