POEM

The ancient Egyptians were very clever.

They figured out how to use the lever.

They built pyramids with stones that weighed a lot.

Inclined planes helped to move them to the right spot.

Why not use wheels? I'm not certain.

History sometimes holds mysteries behind a time curtain.

Did the Egyptian invention work out?

See a pyramid and you have no doubt.

TECHNOLOGY POEM BUILDER

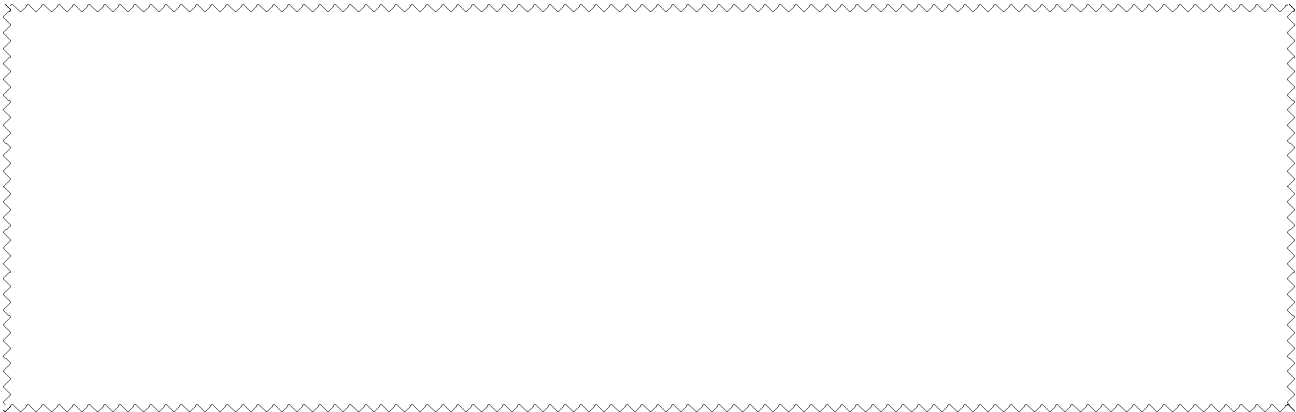

Choose a technology topic. _____

1. List words that are part of explaining the topic.
2. Draw a picture or diagram of what you think about this topic.
3. Write a poem about it. Use your words.
