

Word Bank: Seasons and Weather

Here are some of the terms students need to know about seasons and weather.

Choose the words that your class will learn.

Add more words, too.

Your students can make the same bilingual chart for any topic.

Basics	Measure	Events	Effects	Careers
air = <i>aire</i> air mass = <i>masa de aire</i> clouds = <i>nubes</i> cirrus clouds = <i>nubes cirrosas</i> cumulus clouds = <i>acumulación de nubes</i> climate = <i>clima</i> tides = <i>marea</i> current = <i>corriente</i> precipitation = <i>precipitación</i> temperature = <i>temperatura</i> wind = <i>viento</i>	air pressure = <i>presión de aire</i> day = <i>día</i> degree = <i>grado</i> dew point = <i>punto de condensación</i> Fahrenheit = <i>Fahrenheit</i> humidity = <i>humedad</i> latitude = <i>latitud</i> longitude = <i>longitud</i> relative humidity = <i>humedad relativa</i> thermometer = <i>termómetro</i> temperature-humidity index = <i>índice de temperatura de humedad</i> thermostat = <i>termostato</i> wind vane = <i>paleta de viento</i>	autumnal equinox = <i>equinoccio de otoño</i> vernal equinox = <i>equinoccio vernal</i> summer solstice = <i>solsticio de verano</i> winter solstice = <i>solsticio de invierno</i>	acid precipitation = <i>lluvia ácida</i> blizzard = <i>ventisca</i> greenhouse effect = <i>efecto invernadero</i> hurricane = <i>huracán</i> thunderstorm = <i>tormenta eléctrica</i> tornado = <i>tornado</i> trade winds = <i>vientos alisios</i> tsunami = <i>tsunami</i> weathering = <i>desgaste atmosférico</i>	meteorologist = <i>meteorólogo</i> meteorology = <i>meteorología</i> weather forecaster = <i>pronosticador del tiempo</i>
